8 to 10 in.....	.50
Spruce, Colorado	
12 to 15 in.....	.50 to .75
Spruce, White	
10 to 12 in.....	.35

## Watch Your Evergreens for Red Spider

Many trees are ruined by red spider during the hot summer months. They attack Spruce, Cedars and spreading varieties of Junipers causing the needles to turn brown and drop off.

When the needles once drop from Spruce they never come back, thus leaving the branches bare and unsightly.

A good dusting with lime sulphur will destroy red spider.

There is also a fungus which works on Junipers and Arbor Vitae. Bordeaux mixture will destroy this fungus.

We keep lime sulphur and bordeaux mixture in stock.

We also dust and spray trees on request.

## Shade Trees

Ash, Green	
6 to 7 ft.....	\$0.75
Ash, Mountain	
4 to 5 ft.....	.90
6 to 8 ft.....	1.75

Walnut, Black	
6 to 8 ft.....	1.50
Willow, Niobe, Weeping	
7 to 8 ft.....	.75
8 to 10 ft.....	1.00 to 1.50

When planting a shade tree cut back top branches one-half. Dig the hole deep and fill with water which should be allowed to settle. Set tree deep and tamp hard with foot. After tree is planted water again. Then water twice a week for a month if in sandy soil. Less watering is required in heavy soil. Some varieties of trees will drown if watered too much.

## Lawn Grass Seed

Crystal Lawn Seed, best mixture of Clover, Red Top and Kentucky Blue- grass, lb.....	45c
Hiawatha Park Seed, a mixture of Clover, Red Top, Bluegrass and Rus- sian Rye, lb.....	40c
